

AHCIP Billing: After-Hours Codes

Quick Reference Guide

Understanding how to bill after-hours codes can be confusing. This guide provides key information and best practices to ensure correct billing of after-hours codes.

What are after-hours codes?

After-hours codes are codes billed in addition to patient visits to account for physicians working after-hours and/or travelling to a different location to care for a patient.

Some of these codes require a modifier to be billed alongside the after-hours code to indicate the timeframe the physician worked, and if it was a weekday or weekend.

After-Hours Codes

Fee Code	Description	Value
03.01AA	After-Hours Time Premium	\$0.00
03.03LA	Special Callback to Hospital Emergency/Outpatient Department (weekdays 5:00pm-10:00pm, weekends and statutory holidays 7:00am-10:00pm)	\$116.29
03.03KA	Special Callback to Hospital Emergency/Outpatient Department (any day between 7:00am-5:00pm)	\$77.53
03.03MD	Special Callback to Hospital Emergency/Outpatient Department (any day between 12:00am-7:00am)	\$155.06
03.03MC	Special Callback to Hospital Emergency/Outpatient Department (any day between 10:00pm-12:00am.)	\$155.06

03.05R	Special Callback to Inpatient (any weekday between 7:00am-10:00pm)	\$113.38
03.05N	Special Callback to Inpatient (any weekday between 7:00am-5:00pm)	\$75.59

We will cover the difference between these codes and their payment rules in detail on the following pages.

03.01AA - After-hours Time Premium

The After-Hours Time Premium can be billed in addition to other codes to account for working after-hours – for example, a shift premium. To bill for this, you must bill the fee code 03.01AA with a modifier indicating the time of day you provided the service and the number of calls made (15 minutes per call). Keep in mind, 15 minutes equate to 1 unit. If a doctor spends 30 minutes with a patient, that is 2 units.

Payment Rules

There are 6 different modifiers:

Modifier Code	Time Description	Maximum Units of 15 Minutes Per Day	Value (per 15 min)
TEV	Monday-Friday: 5:00pm-10:00pm	20	\$22.79
TNTP	Any Day: 10:00pm-12:00am	8	\$45.55
TNTA	Any Day: 12:00am-7:00am	28	\$45.55
TWK	Weekend: 7:00am-10:00pm	60	\$22.79
TST	Stat Holidays: 7:00am-10:00pm	60	\$45.55
TDES	Designated stat holidays: 7:00am-10:00pm	60	\$22.79

Note: **03.01AA** is also billable in addition to other visits (during the same encounter) on the same date of service. A physician can bill a maximum of four (4) after-hours time premium modifiers per hour.

Example:

A doctor is working after-hours on a weekend at their office. At 7:00 pm, the doctor sees a patient with an injury. Due to the nature of the injury, the doctor performs a physical examination (appropriate to their specialty) and takes a full medical history. The visit lasts 50 minutes. This is how the claim would be billed:

- 03.04A
03.01AA (Modifier) TWK04.

Explanation:

The physician would choose **TNWK** because the patient encounter happened at 7:00 pm and therefore falls under the description “Weekend: 7:00 am - 10:00 pm”.

The physician would choose **04** because the encounter was 50 minutes (rounding up from 3 units).

- 03.04A
03.05R

Explanation

The physician would choose **03.05R** because the patient encounter happened at 8:00 pm and therefore falls between the special callback and hospital in-patient timeframe.
